

ActiV

Outstanding detection performance at a very competitive price.

Manufactured in the UK by C-TEC, comes the latest in conventional fire detection, the ActiV range. Suitable for use with virtually all known conventional fire panels, including C-TEC's own CFP

0359-CPD-0183

Intertek

Key Features

- Third-party certified to EN54-5 & 7
- Wide 6-33V DC operating range
- Two ultra-bright LED indicating strip offers 360° visibility when illuminated
- IP42 rated
- Low current draw 30µA quiescent at 24V
- Sophisticated onboard detection algorithms help reduce false alarms
- Compatible with the C4408 base range
- Simple 'click and twist' design and easy to fit base

Variants

Code	Description
C4416	Optical Smoke Detector
C4414	Multisensor
C4403AIR	65° ROR Heat Detector
C4403A2	65° Heat Detector
C4403B	85° Heat Detector
C4408D	Diode Base
